

10-YEAR WARRANTY DETAILS

What Is Covered

This warranty covers only defects in materials or workmanship, including installation, with the exceptions stated below.

What Is Not Covered

This warranty does not cover any discoloration or failure of the crown caused by tooth decay or consumption of staining liquids and foods. Should the crown require repair or replacement, additional treatments associated with the procedure are not covered.

How Long Coverage Lasts

This warranty runs for 10 years from the date the crown is delivered. You must remain a patient of DeVaney Dentistry for the entirety of the 10 years following placement of the crown/bridge. You must maintain a minimum number of recommended cleaning appointments every calendar year from the date of delivery. Regular patients: 2 times per year. Perio-compromised patients: 3-4 times per year.

What Voids The Warranty

Excessive clenching, ice chewing, refusal of treatment for diagnosed bruxism, failure to maintain cleaning appointments and recommended radiographs, or cancelling a hygiene appointment within 24 hours notice. Failure to complete, in our office, all treatment in the area of the mouth where the crown/bridge is located within 3 months of being diagnosed and treatment planned. Direct treatments on the restoration by persons other than DeVaney Dentistry employees will void this warranty.

What Will DeVaney Dentistry Do

DeVaney Dentistry will repair a restoration that proves to be defective in materials or workmanship. In the event the repair is not possible, DeVaney Dentistry will replace the crown with a new crown on similar material and price. Replacement in full for up to 5 years old; years 5-10, replacement is prorated.
